NPL Status: Non NPL	Operable Unit:
Mobilization Date: 3/25/2023	Start Date:
Demob Date:	Completion Date:
CERCLIS ID:	RCRIS ID:
ERNS No.:	State Notification:
FPN#:	Reimbursable Account #:

1.1.1 Incident Category

Emergency Response

1.1.2 Site Description

Release of Acrylic Polymer into Delaware River

1.1.2.1 Location

100 Rte 413 Bristol, Bucks County, VA

1.1.2.2 Description of Threat

Release of hazardous substances, pollutant, or contaminants which may affect drinking water intakes

1.1.3 Preliminary Removal Assessment/Removal Site Inspection Results

An assessment performed by EPA and PA DEP revealed the initial uncontrolled release of an acrylic polymer from a facility to a creek which discharges to the Delaware River. Several drinking water intakes are located in the area.

2. Current Activities

2.1 Operations Section

2.1.1 Narrative

Altuglas (also known as Trinseo) reported a release of 90,000 lbs. of acrylic polymer from a facility in Bristol, PA. The release entered a creek which discharges to the Delaware River. The incident was reported close to midnight on 3/24/23. Local County and facility hazmat teams responded and were able to plug the release.

The incident is in USCG jurisdiction. USCG is the Federal On-Scene Coordinator for this incident.

On 3/25/23, the head pressure behind the plug forced additional polymer to release around the plug. The facility did not perform prompt and effective mitigation efforts.

2.1.2 Response Actions to Date

PA DEP responded during the night of 3/24-3/25. On 3/25, an EPA OSC responded to the scene and assisted PA DEP with assessment. USCG was on scene. Later that day, a USCG FOSCR arrived on scene to assume the Federal On Scene Coordinator role. USCG is performing response actions under the authority of the National Contingency Plan.

Through the water utility emergency warning system, drinking water companies were notified. Three drinking water intakes are in the area of the spill - two in PA and one in NJ. The EPA R3 Duty Officer notified EPA Region 2.

PADEP established a drinking water group which is comprised of local, state, and federal (including EPA) officials and private water companies. The City of Philadelphia issued a drinking water advisory, but did not

issue a mandatory NO DRINK order.

The water utilities have in-house capabilities for sampling. In-house sampling was conducted throughout the weekend.

USCG oversaw cleanup actions on Site.

PADEP contacted EPA on 3/26/23 to request assistance with water sampling on the Delaware River. EPA and START performed sampling upstream and downstream of the 3 drinking water intakes as well as two other areas of potential concern.

Split samples were sent to Aqua, a drinking water utility with in-house laboratory facilities and also to Eurofins, a private laboratory.

The City of Philadelphia activated its EOC and requested an EPA representative. An EPA R3 OSC is filling this role.

2.1.3 Enforcement Activities, Identity of Potentially Responsible Parties (PRPs)

The reporting party was identified as Altuglas. The personnel on scene are identified as Tinseo. Since this happened on a weekend EPA is unsure of this connection at this time. EPA will seek the assistance of the regional cost recovery team.

2.1.4 Progress Metrics

<i>Waste Stream</i>	<i>Medium</i>	<i>Quantity</i>	<i>Manifest #</i>	<i>Treatment</i>	<i>Disposal</i>

2.2 Planning Section

2.2.1 Anticipated Activities

EPA sample results are expected 3/27/23

2.2.1.1 Planned Response Activities

EPA has no current requests from the USCG FOSCR

2.2.2 Issues

USCG is the Federal On Scene Coordinator for this incident. EPA is preparing this polrep to document actions performed in support of the USCGA

2.3 Logistics Section

No information available at this time.

2.4 Finance Section

2.5 Other Command Staff

2.5.1 Safety Officer

Safety is being managed by USCG Sector Delaware Bay

2.5.2 Liaison Officer

An EPA OSC is deployed to the City of Phila EOC as EPA Liaison

2.5.3 Information Officer

USCG has established a PIO group to coordinate messages to the public

3. Participating Entities

3.1 Unified Command

USCG - FOSC
PA DEP
NJ DEP
Bucks County EMA
City of Phila EMA
Trinseo (PRP)

3.2 Cooperating Agencies

4. Personnel On Site

No information available at this time.

5. Definition of Terms

PA DEP - Pennsylvania Department of Environmental Protection
NJ DEP - New Jersey Department of Environmental Protection

6. Additional sources of information

No information available at this time.

7. Situational Reference Materials

No information available at this time.
